

## Ecofloor ComfortMat Do-it-yourself package

The Ecofloor Comfort Mat contains the following supplements:

1. On a mat, with double sided tape integrated heating cable
2. Digital thermostat inclusive floor sensor
3. Protection box for the floor sensor

The Ecofloor Comfort Mat Do-it-yourself package can be used as floor heating and is suitable for every dry or wet room. The Ecofloor Comfort Mat can be delivered in two capacities, namely 100 W en 160 W per m<sup>2</sup>. Because the cable is already placed on the mat, the system is easy to install.

The specifications of the Ecofloor Comfort Mat are the following:
