

Guidelines for your warm feet mat.

Put the plug in the socket, wait for about 20 minutes and your warm feet mat is nicely warm.

Don't do the following with your warm feet mat:

- Don't fold
- Don't cut
- Don't use while wet

After possible cleaning of the mat, leave it to dry for at least 24 hours, before using it again. If you spilled fluids on the mat (coffee, tea or lemonade) pull the plug out of the socket, clean the stains and let it to dry before using it again.

Safe : Meets the needs of the European Safety standards
Profitable : In purchase and use (the mat only uses € 0,2 per hour).
Animal friendly : Pets are crazy about this comfortable mat, but be careful for the power cable that has a load of 230V, pets chew on everything!!!

Thermal Blockage:The Warm Feet Mat needs to be able to release its warmth, never create a thermal blockage on the mat.

Finish : Fully festonnated and delivered standard in a antracit-Color.

Cleaning : After possible cleaning of the mat, leave it to dry for at least 24 hours, before using it again. If you spilled fluid on the mat (coffee, tea or lemonade) pull the plug out of the socket, clean the stains and let it to dry before using it again.

Have fun with your warm feet mat.
