

## Ecoflex Wall heating panels

The Heatel Ecoflex EI convector units count as heating panels which are being used in home-building, utility-building and industry. The panels are not bound to one place and heat up very quickly. The panels can be used as the main heating or as an extra heating when the panels are used in combination with floor heating.

The Heatel Ecoflex EI convector units are available in the following measurements and capacities:

Article nr.	Name	Measurement	Weigth	Capacity
13001	ecoflex el 05	360x400x80	3,7 kg.	500 W
13002	ecoflex el 07	360x400x80	3,7 kg.	750 W
13003	ecoflex el 10	440x400x80	4.2 kg.	1000 W
13004	ecoflex el 12	520x400x80	4,9 kg.	1250 W
13005	ecoflex el 15	600x400x80	5,5 kg.	1750 W
13006	ecoflex el 17	680x400x80	6,1 kg.	1750 W
13007	ecoflex el 20	760x400x80	6,8 kg.	2000 W
13008	ecoflex el 25	1000x400x80	7,8 kg.	2500 W

We would like to give you a complete advice in how to devide you electrical heating in the present rooms.
